HIGHLIGHTS & FEATURES

REMOVABLE BREWING UNIT

Allows for easy cleaning and maintenance.

15-BAR PUMP

Pumps the water through the ground coffee at high pressure to ensure better-tasting crema-topped espressos.

RAPID STEAM SYSTEM

This exclusive system reduces the waiting time between brewing and steaming to a few seconds thanks to its twin boilers.

EASY INTERFACE

You can easily select and programme the quantity of coffee for cup according with your preference. The LED display allow you a constant control of the machine and alert you when a descaling cycle is needed.

CERAMIC GRINDER

The ceramic coffee grinder assures silent functioning, high performance and maintenance of all the coffee properties.

OPTIAROMA SELECTOR

You can select the amount of coffee beans to be ground for each espresso.

GROUND COFFEE OPTION

This allows you to brew a different blend of coffee without changing the beans but using the ground coffee selected.

DESCALING ALARM

The machine will indicate when a descale cycle is necessary.

BRERA
