

Area OTC Pro-Disc

Description

The product family Area is enriched with a new model: Area OTC Pro-Disc.

This latest version is equipped with a new mechanism/feature capable of managing professional coffee pods in aluminum, but also tea, soluble and even broths. The extraction mechanism is solid and reliable, guaranteeing a constant and long-lasting performance.

Area OTC Pro-Disc, with its essential and elegant shapes, is designed for every out-of-home location. Thanks to its capacitive interface equipped with photo-realistic images and a simple and intuitive iconographic display, it can easily dispense up to 8 beverages with direct selection. Furthermore, the coffee dispenser offers 3 different heights of dispensing: 90, 140 and 160 mm, for glasses or cups of different sizes. Finally, Area OTC Pro-Disc is also equipped with an integrated cappuccinatore, for the preparation of beverages made with fresh milk, and a independent nozzle for hot water

Accessories

- FR7L refrigerator
- Milk Cooler
