

# Easy PRO

## The compact and versatile best selling machine

The most imitated change machine of the range has been entirely renovated and is now even more secure and reliable, thanks to the connection of installed peripherals via ccTalk. The 32-bit CPU provides functions normally present only on change machines of higher range and price, such as importing/exporting configuration parameters, exporting accounting data and the useful function of machine cloning.

The reinforced closing mechanisms make Easy PRO one of the most secure change machines on the market with respect to attempts of tampering and fraud. The COMESTERO Easy PRO fits perfectly into all environments: shopping centres, gyms, airports, service stations, arcades, offices, bars and internet cafés.
